

The International Conference on Animal Models for Cardiovascular Disease (ICAMCD 2023)

On behalf of the Japan Rabbit Bioscience Association, we are pleased to welcome you to attend the International Conference on Animal Models for Cardiovascular Disease (ICAMCD 2023) in Yamanashi, Japan. During this meeting, we can exchange the state-of-the-art information on application of animal models for cardiovascular research. Experts from Japan, Europe, USA, and China will present the newest results obtained during the past years. Thank you for coming to Yamanashi and we do hope that you have the most enjoyable time in Japan.

Jianglin Fan, MD, Ph.D., FAHA
Chairman and Professor
